

On January 25, 2020 we will be hosting the 3rd Annual Cape Cod Moms Parent Resource Fair at Cape Cod Community College. Our mission is to continue to empower, connect and engage local parents with resources and family friendly businesses. Last year was an overwhelming success with over 300 attendees; and we would like you to consider sponsorship of this event.

### **Why January 25th?**

To create positive stimulation in the economic health and community health of Cape Cod specifically for families and children. We wish to showcase businesses and resources to help engage families in the local community.

### **The Vision**

We hope to inspire knowledge, empowerment, and education. A connected, supported community is a healthy community.

### **What is Cape Cod Moms?**

Cape Cod Moms was founded in 2010 as a free resource, a place to network and collaborate for moms and parents on Cape Cod. Our blog is designed to help Cape Cod Moms connect with other moms, parents, and caregivers to empower the community with knowledge and support. Today our culture focuses on celebrity perfection, which fosters a desire in women and caregivers to do everything right. This is an impossible achievement for anyone and leaves women feeling overworked as they try to strive for a standard only achieved in the media. We are a safe haven and a resource so that parents know they are not alone in the obstacles they face every day.
